

# Naresh Rajendra Adhe

**E-mail** - [nareshadhe01@gmail.com](mailto:nareshadhe01@gmail.com)

**Ph** - +919975585475

**Address** - Sangli, MH, India

**Profiles** - [Leetcode](#) [Codechef](#) [Github](#) [Linkedin](#)

## Profile Summary

Enthusiastic and detail-oriented Computer Science undergraduate with a strong foundation in programming, full-stack web development, and problem-solving. Proficient in modern technologies like React.js, Node.js, and MongoDB, with hands-on experience in developing dynamic, user-friendly applications. Skilled in data structures and algorithms, with over 500 solved problems on LeetCode. Passionate about building scalable solutions and continually expanding technical expertise through innovative projects.

## Education

Bachelor of Technology in Computer Science and Engineering	8/23 - 01/25
Walchand College Of Engineering, Sangli	9.03 CGPA
Saraswati Bhavan Educational Society College Of Science, Chatrapati Sambhajnagar	2022
	69.50 %
Nutan Vidyalaya,	2020
Selu	96.00 %

## Technical Skills

Programming Languages: C++, JavaScript, Python

Web Technologies: React.js, Node.js, Express.js, Framer Motion, Tailwind CSS

Databases: MongoDB, MySQL

Tools/Technologies: Git, Linux, GSAP, Postman, Docker

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Systems, Computer Networking

## Projects

- [XPENS](#) | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Framer Motion
- Developed an expense tracking application with features for adding, categorizing, and visualizing expenses using dynamic charts.
  - Integrated OTP-based email authentication using Nodemailer and secure data management with JWT and MongoDB.
  - Enhanced the user interface with smooth animations and transitions powered by Framer Motion for an intuitive experience.
  - Designed a responsive, user-friendly interface optimized for cross-platform usability using Tailwind CSS.
- [Food Del](#) | React.js, Node.js, Express.js, MongoDB, CSS
- Built a responsive front-end using React.js, designed for seamless usage on both desktop and mobile.
  - Engineered a scalable back-end with Node.js and Express.js to handle real-time data and user requests.
  - Integrated secure online payment gateways using stipe to streamline the order process. Optimized application performance for fast load times and smooth interactions.
- [Obys Agency Clone](#) | HTML, CSS, JavaScript, GSAP
- Built a responsive front-end using React.js, designed for seamless usage on both desktop and mobile.
  - Engineered a scalable back-end with Node.js and Express.js to handle real-time data and user requests.
  - Integrated secure online payment gateways to streamline the order process.
  - Optimized application performance for fast load times and smooth interactions.

## Achievements

- Solved over 650 DSA questions on various coding platforms, strengthening problem-solving skills.
- Contributed to a team project building a registration website for students for my club. [GitHub Repo](#)
- Improved coding efficiency through consistent practice and algorithm optimization
